

Four Star Announces Wire Twisting Machine

Four Star Wire & Cable expands its value added services to now include twisted pair wire. The state of the art twister now installed at our Sterling Heights location can twist cable in sizes from 10 AWG to 28AWG at very fast speeds. This fast rate of speed allows us to fill your orders faster than ever.

We can run our twister at over 1500 R.P.M. allowing us to twist a 2500 foot spool in under 8 minutes. The take up spool can handle reels up to 32 inches allowing us to twist even greater runs than 2500 feet when our customers needs require it.

The customer can also specify a wide variety of lays from 1/2 inch to 6 inch on their twisting job.

Four Star is offering 24 hour turnaround on all twisting orders, similar to the current stripping and dyeing services provided. Same day will call services are also available for smaller twisting jobs for local wholesalers.
